

BIOGRAPHY

Full name: Nguyen Thi Kim CUC

Email: nguyencuc@tlu.edu.vn

Address: Thuyloi University, 175 Tay Son Street - Dong Da District - Hanoi - VIETNAM

Dr. Nguyen Thi Kim Cuc holds a PhD in Ecology from Ehime University, Japan in 2007, she was promoted to Associate Professor of Thuyloi University (Water Resources University-WRU as former name) in 2015.

She has contributed her in-depth expertise on mangroves and overall coastal ecology to numerous studies advising practical implementation of coastal afforestation. Her expertise was instrumental to one of the biggest mangrove restoration program in Vietnam which last for more than 20 years since 1996, the VNRC/IFRC/JRC mangrove afforestation and DRR project.

Dr. Cuc also implemented her postdoc in Climate Change Adaptation in the Mekong River basin, IHE-UNESCO, The Netherlands (2011-2013). She has conducted several studies on climate change adaptation for the two biggest deltas of Vietnam, Mekong and Red River Deltas.
